

How to sign up for the 2025 Grid Pass

We're glad you're planning to race with us again!

Because most of our drivers said in the last 2-3 polls that they want all races broadcast and independent (not SC) race control, the cost has increased dramatically with 28 races per Series (plus 7 non-broadcast Entry Class races).

While PCA National remained very supportive and has not cut our budget, as we continue to grow we have to ask for drivers to purchase a 2025 "Grid Pass". That allows drivers access to S13, S14, and TRS.

The full list of 2025 Grid Pass and non-Grid Pass activities is here:

<https://pcasimracing.com/2025-grid-pass-schedule/>

FOLLOW THESE EXACT STEPS

1. **FIRST, STOP** If you are joining PCA Sim Racing for the first time, or an Entry Class driver. You do not need a Grid Pass. Leave this page.
2. **SECOND**, log into PCA.org with your account. You must be an active member, co-member, or test-drive member.
3. **THIRD**, After logging into PCA.org, leave the browser open to the PCA.org homepage so it **VALIDATES** you as an active PCA member. If you do not log into PCA.org first, it will cause errors. It is a secured page through PCA.
4. **FOURTH**, go to <https://web.pca.org/simracinggridpass/> to complete registering for your Grid Pass.

If you have questions, please look on our Discord server at the category 2025 PLANS.
